

STATE OF COLORADO

Department of Public Health and Environment
under Primacy Agreement with the United States Environmental Protection Agency
Pursuant to the Safe Drinking Water Regulations, 40CFR, Part 141

Certifies

ACZ LABORATORIES, INC.
2773 Downhill Drive
Steamboat Springs, CO 80487

is in compliance with the criteria and procedures of the EPA Manual for the Certification of Laboratories Analyzing Drinking Water. The laboratory may perform Chemistry Analysis on public drinking water for the following parameters:

Trace Metals*, Nitrate, Nitrite, Fluoride, Total Cyanide.

*includes Uranium by EPA-200.8.

Approved parameters are specified on certification list of September 1, 2011.

EFFECTIVE:

September 1, 2011 through August 31, 2012.

Colorado Department
of Public Health
and Environment

August 2, 2011

Mr. Matt Sowards
ACZ Laboratories, Inc.
2773 Downhill Drive
Steamboat Springs, CO 80487

RE: Chemistry and Radiochemistry Certification

Dear Mr. Sowards:

Enclosed are your new Colorado Department of Public Health and Environment Safe Drinking Water (SDW) Chemistry and Radiochemistry Certificates along with your laboratory scope of accreditation dated September 1, 2011, which are effective through August 31, 2012, unless suspended or revoked prior to that date, and are based upon successful participation in recent Water Supply Proficiency Testing Studies for your approved parameters.

This certification must be renewed by September 2012. Routine on-site assessments are conducted every two years unless the certification is modified. In all probability there will be an assessment at the time of renewal, but it is the laboratory's responsibility to submit a renewal application and annual certification fee.

If you have any questions, or if there are changes that may affect your certification status, you can reach me at (303) 692-3045.

Best Regards,

Ben Chouaf, Certification Officer
Laboratory Services Division
